

NATIONAL SECURITY COUNCIL

August 8, 1975

To Secretary Kissinger:

Since doing the attached memo, I have learned that the meeting will focus primarily on the President's report on economic issues discussed in Europe. However, the EPB interests in your upcoming speech in the U.N., and in light of the fact that the list of international economic issues at Tab B has been distributed to them, the attached package might be useful to have in front of you in case these issues are raised.
